Portfolio: https://www.brightgaza.com/talents/477

PROFESSIONAL SUMMARY

Full-Stack Web Developer and Computer Systems Engineer with 2+ years of hands-on experience building secure, scalable web applications using Laravel, React, PHP, JavaScript, and MySQL. Skilled in designing RESTful APIs with Role-Based Access Control (RBAC), developing responsive user interfaces, managing source code with Git and GitHub, containerizing applications with Docker, and deploying production applications to live hosting environments. Delivered real-world systems across healthcare, e-commerce, and project management domains, with a consistent focus on clean code, security best practices, and measurable performance improvements.

TECHNICAL SKILLS

Programming Languages: PHP, JavaScript, Python, HTML5, CSS3

Frameworks & Libraries: Laravel, React, Bootstrap, Tailwind CSS

Backend & API Development: RESTful API Design, MVC Architecture, Eloquent ORM, Blade Templating, Authentication & Authorization, Role-Based Access Control (RBAC), Audit Logging

Databases: MySQL, Redis

Version Control & DevOps: Git, GitHub, GitHub Actions, Docker, CI/CD Workflows

Deployment & Hosting: Hostinger, Web Application Deployment, Database Configuration

Tools & Practices: Postman, Composer, npm, Responsive Web Design, Cross-Browser Compatibility, Debugging & Troubleshooting, Remote Team Collaboration

PROFESSIONAL EXPERIENCE

Backend Developer (Part-Time)

HOSKADEV | Remote | November 2025 - Present

- Develop and maintain complex full-stack web applications using Laravel, React, PHP, and MySQL, delivering robust end-to-end solutions.
- Build and integrate backend RESTful APIs with frontend interfaces, ensuring seamless functionality and optimal user experience.
- Manage source code, branching, and code reviews through Git and GitHub within a distributed development workflow.
- Collaborate with cross-functional remote teams to deliver high-quality, secure, and scalable web applications on schedule.

Backend API Developer (Contract)

ePluribus Health | Remote | May 2026

- Designed and developed a secure Laravel backend API with Role-Based Access Control (RBAC) for internal user management.
- Implemented comprehensive audit logging covering authentication events and administrative CRUD operations for compliance and monitoring.
- Built a scalable database architecture and RESTful endpoints supporting integration with external dashboards and frontend applications.
- Applied secure authentication, authorization, and API best practices to ensure maintainability and future scalability.

Web Development Intern

HOSKADEV | Remote | April 2025 - October 2025

- Completed 320 hours of hands-on remote training in Laravel, React, PHP, and MySQL, earning an Internship Completion Certificate.
- Launched 4 web applications using Laravel and React, expanding the company project portfolio by 20%.
- Delivered 2 client projects on schedule, consistently meeting requirements and exceeding client expectations.

- Implemented core e-commerce features including product catalogs, shopping carts, and secure payment gateway integration.
- Provided technical support and troubleshooting to ensure stable operation of deployed web applications.

PROJECTS

Healthcare Backend API & Audit System
Laravel | MySQL | RESTful API | RBAC

- Scalable backend API featuring role-based access control, secure authentication, comprehensive audit logging, and cloud-ready database architecture for administrative monitoring and frontend integration.

Clinic Management System
Laravel | MySQL | Bootstrap

- Complete clinic management platform that improved appointment scheduling efficiency and reduced manual administrative work.

Project Management System
Laravel | React | MySQL

- Project management platform enhancing project tracking, task assignment, and team productivity across multiple concurrent projects.

Healthcare Tools & Inventory System
Laravel | MySQL

- Inventory management system for medical tools that increased tracking accuracy and reduced operational errors.

E-Commerce Web Applications
Laravel | React | MySQL | Payment Gateway Integration

- Online stores with product catalogs, shopping carts, secure payment integration, and optimized responsive user experience.

Laravel Explorer - Interactive Learning Game
HTML5 | CSS3 | JavaScript | Responsive UI

- Browser-based educational game teaching Laravel project structure through four interactive levels, drag-and-drop exercises, and a scoring system.

EDUCATION

Bachelor of Engineering in Computer Systems Engineering
Al-Azhar University | Gaza, Palestine | September 2021 - September 2026 (Expected)
GPA: 87%

General Secondary Education Certificate (Tawjihi)
Al-Azhar Institute | Gaza, Palestine | Graduated 2021
GPA: 84.1%

CERTIFICATIONS & TRAINING

- Front-End Web Development Diploma (React JS) - SEF Future, 4-Month Program
- Internship Completion Certificate (320 Hours) - HOSKADEV, 2025
- AI Certified Freelancer - Taqat Work Platform

LANGUAGES

Arabic: Native
English: Intermediate (Professional Working Proficiency)
